Acknowledgments.	xix
Introduction: Best Practice in the Treatment of Autism	xxi

CHAPTER 1

What Is Autism?	1
---------------------------	---

Betty A. Paris

Changes in Diagnostic Criteria.	1
Diagnosing ASD	3
Other Disorders With Autistic-Like Symptoms	4
What Causes Autism Spectrum Disorders?	6
References.	6

CHAPTER 2

Neurobiological Underpinnings of ASD	9
--	---

Gretchen Dahl Reeves

Physical Variations	10
Prenatal Organization of the Brain	13
References.	21

CHAPTER 3

Sensory Integrative Theory and Treatment: Occupational Therapy
With a Sensory Integrative Approach 27

Sarah A. Schoen, Lucy Jane Miller, and Darci M. Nielsen

What Is “Normal” Sensory Integration? 27

The Eight Sensory Systems: Definition/Function and Basic Neurology 29

Sensory Processing Disorder: Nosology and Definition. 35

Ecological Model of SPD: Relation of Sensory Processing to Emotion 37

Intervention. 39

OT With a Sensory Integrative Approach for Children With ASD 48

Conclusion 51

References. 51

CHAPTER 4

Sensory Modulation 57

Shelly J. Lane and Stacey Reynolds

Defining Sensory Modulation. 57

Disorders of Sensory Modulation. 59

Sensory Modulation in Development and Its Relationship to Arousal
and Attention 61

Neurological Processes Involved in Sensory Modulation 63

Models of Sensory Modulation Disorder 64

Prevalence and Risk Factors Associated With SMD. 67

Sensory Modulation Disorders on the Autism Spectrum 69

Approaches to Treatment of Sensory Modulation Disorders. 76

Conclusion 82

References. 82

CHAPTER 5

Intervention Strategies for Sensory Modulation Disorders 89

Carolyn Murray-Slutsky and Betty A. Paris

The Calm-Alert State	89
Anxiety and Its Impact on the Calm-Alert State	92
Environmental Modifications for Children With ASD	94
Supporting Self-Regulation: External Dimensions	100
Support Strategies for Teaching and Maintaining Self-Regulation	103
Sensory-Based Intervention Strategies: Theoretic Overview	105
Sensory Diets	108
Sensory Modulation Subtypes and Their Intervention	116
Sensory-Based Activities for the Treatment of Sensory Modulation Disorders	127
Alternative Strategies for Self-Regulation	136
Sensory Modulation: Often More Than Just a Modulation Problem	137
References	139
Appendix A: Intervention for Hyperresponsivity to Touch (Tactile Defensiveness)	143
Appendix B: Functional Solutions for Defensive Reactions to Touch	144
Appendix C: Intervention for Hyperresponsivity to Movement or Gravity	148
Appendix D: Functional Solutions for Defensive Reactions to Movement or Gravity	149
Appendix E: Functional Solutions for Defensive Reactions to Environmental Sounds or Noise	150

CHAPTER 6

Sensory Discrimination Disorders and Intervention Strategies 151

Carolyn Murray-Slutsky and Betty A. Paris

Sensory Differences in Autism	151
Sensory Discrimination: Overview	151
Proprioception and Discrimination	152
Vestibular Processing and Discrimination	153
Visual Processing and Discrimination	155

Somatosensory System and Discrimination.....	156
Role of Tactile System and Proprioception in Normal Development.....	157
Evaluation of Discrimination Disorders.....	162
Intervention Strategies for Sensory Discrimination Disorders.....	171
Vestibular Discrimination Intervention.....	173
Proprioceptive Discrimination Intervention.....	175
Tactile Discrimination Intervention.....	175
Treatment Progression.....	175
Improving Body Scheme and Gross Motor Control.....	177
Improving Fine Motor Control.....	193
Improving Oral Motor Control.....	207
Summary: Case Study.....	207
References.....	212

CHAPTER 7

Praxis Disorders.....	215
-----------------------	-----

Teresa A. May-Benson

Background.....	215
Fundamental Concepts of Praxis.....	215
Praxis Dysfunction.....	219
Relation of Praxis to Speech and Language.....	236
References.....	239

CHAPTER 8

Intervention for Praxis Deficits.....	245
---------------------------------------	-----

Teresa A. May-Benson and Carolyn Murray-Slutsky

General Principles for Praxis Intervention.....	245
Principles for Treating Specific Problems.....	247
Activities for Improving Praxis.....	250
Additional Accommodations or Adaptations to Facilitate Functional Performance.....	262
References.....	263

CHAPTER 9

Sensory-Based Oral Motor and Feeding Problems and
Intervention Strategies. 265*Carolyn Murray-Slutsky*

Prevalence of Feeding Issues in Autism	265
Overview: Sensory-Based Oral Motor and Feeding Programs	265
Sensory Processing Problems and Their Relationship to Feeding	268
Motor Control Needed for Eating and Self-Feeding	276
Evaluation	278
Direct Intervention: Core Sensory-Motor Strategies	281
Increasing Oral Motor and Sensory-Motor Control	288
Oral Motor Program Schedules: Establishing a Sensory-Based Oral Motor Program	293
Eating: A Functional Activity	293
Mouthing Objects or Clothing, Biting, and Pica	300
References	303

CHAPTER 10

Motor Control and Coordination Difficulties 307

Carolyn Murray-Slutsky and Betty A. Paris

Motor Differences in Autism Spectrum Disorder	307
Motor Control Problems That May Be Related to Sensory Difficulties	313
Integrating Neurodevelopmental Treatment and Sensory Integration	320
Assessment and Clinical Observations of Motor Control	323
Intervention for Motor Control	332
Combining Sensory and Motor Strategies	340
References	341

CHAPTER 11

Behavioral Issues: Analyzing the Behavior 347

Carolyn Murray-Slutsky, Betty A. Paris, and Pamela Hudson Baker

Primary Causes and Maintaining Consequences 347

Analyzing Behaviors. 350

Obtaining Behaviors. 353

Avoidance or Escape Behaviors 356

Role of Functional Behavior Assessment 360

Is It Sensory or Is It Behavior? Analyzing the Behavior 361

References. 363

CHAPTER 12

Behavioral Approaches That Facilitate Positive Outcomes 365

Carolyn Murray-Slutsky and Pamela Hudson Baker

Foundational Aspects of Positive Behavior Supports 365

Target Replacement Behaviors 367

Teach Replacement Behaviors. 367

Use Reinforcers Effectively 371

Plan to Fade Reinforcement 375

Use Removal of Reinforcement as Needed 377

Design a Comprehensive Behavior Intervention Plan 378

References. 381

CHAPTER 13

Behavioral Intervention Strategies for Managing
Challenging Behaviors 383

Carolyn Murray-Slutsky and Pamela Hudson Baker

Intervention Strategies for Obtaining Behaviors 383

Intervention Strategies for Avoidance or Escape Behaviors. 388

Maximizing Use of Behavioral Techniques to Facilitate Change 398

Temper Tantrums. 408

Restrictive, Repetitive, Self-Stimulation, and Other Challenging Behaviors	412
References.	419
CHAPTER 14	
Improving the Child's Ability to Communicate	423
<i>Robin Parker</i>	
About Communication	423
Communication Impairments in Children With Autism	425
Quick Assessment Strategies.	432
Intervention Strategies.	434
References.	452
CHAPTER 15	
Augmentative and Alternative Communication	455
<i>Carole Zangari</i>	
Why Use AAC Strategies With Individuals With ASD?	456
AAC and Children at Different Stages of Communicative Development	459
Types of AAC Systems	460
Developing AAC Intervention Programs	462
Frequently Asked Questions About AAC.	467
Interviewing the Potential Speech-Language Pathologist	470
Funding for AAC Devices and Services	472
References.	472
Appendix A: Resources	474
CHAPTER 16	
The Importance of Play in Learning and Development	475
<i>Mary M. Murray and Betty A. Paris</i>	
Typical Development of Early Play Skills	478
Later in the Development of Play	479
Adolescence	480

Play at Any Age 480
Play Development Differs in Autism 481
Intervention Strategies 484
Summary 493
References. 493

CHAPTER 17

Educational Strategies in Autism Spectrum Disorders 497

*Mary M. Murray, Pamela Hudson Baker, Leslie A. Straka,
and Carolyn Murray-Slutsky*

Addressing Foundational Needs 497
Interventions: Theory of Mind 499
Interventions: Organizing Environments. 502
Interventions: Problem Solving and Decision Making 506
Other Interventions 507
References. 515

Subject Index 519
